

## CORECASES FOR OB-GYN

PROFICIENCY. PROGRESS. PERFORMANCE.

Medical education is undergoing a transformation causing significant challenges to teaching programs and educators. Healthcare reform, advances in technology, shorter work hours, and the unprecedented volume of information and critical knowledge students and providers must learn and apply, all impact the educational process.

The American College of Obstetricians and Gynecologists (ACOG) also recognizes that Ob-Gyn Residency Programs are facing the challenge of ensuring consistent education, objectively assessing and monitoring performance and consistent reporting of individual proficiencies aligned with the Accreditation Council for Graduate Medical Education's (ACGME) Core Competencies and Milestones.

### CoreCases for Ob-Gyn...

- helps address these challenges and provides a process for instruction that is comfortable for students and welcomed by faculty.
- meets educational prerequisites and engages all participants in a collaborative scholastic experience.
- transforms your current educational program from traditional lecture-based sessions to a technology-supported interactive learning forum incorporating discussion groups, self-study, and thought provoking inquiry.

The screenshots show the CaseNetwork interface with three highlighted sections:

- Communication Skills:** A case study titled "Patient History: Patient Interview Video" with a "Feedback" button and a "Rating Scale (5 is best)".
- Decision Oriented Learning:** A "My Choices" section for "Styrene Fibroids" with a "Select A Diagnosis" button and a "Rating Scale (5 is best)".
- Collaborative Learning:** A "Journal Club" section for "MIRRA: CLM in Cochrane Database System Review" with a "Discussion Group" button and a "Rating Scale (5 is best)".

### Shaping a brighter future for medical education

To find out more about how our case-based, competency-focused programs can meet your needs, visit CaseNetwork online at [casenetwork.com](http://casenetwork.com) or email us at [info@casenetwork.com](mailto:info@casenetwork.com).

## CORECASES

**The American College of Obstetricians and Gynecologists**

is committed to advancing the education and training for Ob-Gyn residents. By assessing and tracking performance in key knowledge and skills required for advancement in training, ACOG is ensuring competency and providing specific and immediate instructional support and remediation. Incorporating technology into the educational process, easily encourages further understanding and learning, develops critical thinking and supports better mentoring relationships.

**CaseNetwork**

is helping to shape the future of medical education. The competency-focused approach allows medical professionals to learn the required knowledge faster, more efficiently, and with greater convenience. The CaseNetwork case-based, decision-oriented process provides the most innovative framework for conveying content, measuring competencies, and improving proficiency. This original approach encourages a fresh, interactive method for teaching that is welcomed by today's learners.

**CORECASES FOR OB-GYN**  
Incorporating competencies and milestones into a smart, interactive curriculum

- Objective assessment and tracking
- Case-based, decision-oriented learning
- Encourages critical thinking and collaboration
- Provides opportunities for faculty/resident exchange

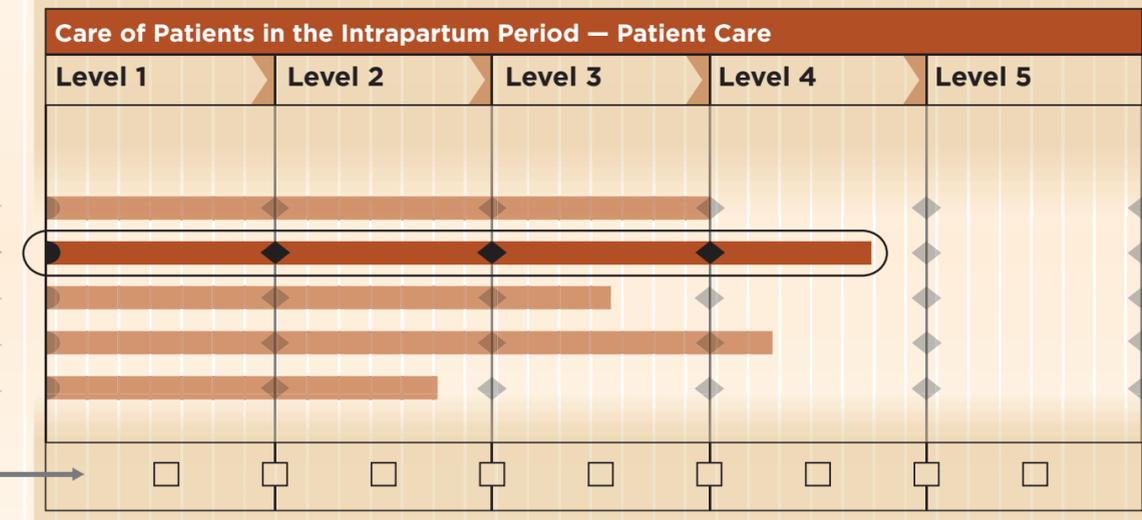

ACOG and CaseNetwork have partnered to jointly develop a curriculum to address the mandated Accreditation Council for Graduate Medical Education (ACGME) Core Competencies and Milestones.

**CORECASES FOR OB-GYN** ACGME outcomes-based developmental milestones

Working together, ACOG and CaseNetwork have jointly developed CoreCases for Ob-Gyn to provide a comprehensive case-based curriculum for Ob/Gyn residents. The program includes 48 simulated patient encounters covering most pertinent topics in the field. Using CaseNetwork's distinctive technology enhanced educational solution and ACOG's designated experts, the mandated ACGME core competencies and milestones can be easily taught, progressively tracked and consistently measured. The proprietary educational format provides state-of-the-art interactive tools that engage residents and help them learn faster and more efficiently, while retaining more information. CoreCases for Ob-Gyn addresses the challenge faced by residency directors, promotes resident participation and engagement, and provides a solution for competency and milestone achievement.

- Professionalism
- Interpersonal and Communication Skills
- Patient Care: Gynecology
- Patient Care: Office Practice
- Patient Care: Obstetrics**
  - PC-1 Antepartum Care and Complications of Pregnancy
  - PC-2 Care of Patients in the Intrapartum Period
  - PC-3 Care of Patients in the Postpartum Period
  - PC-4 Obstetrical Technical Skills
  - PC-5 Immediate Care of the Newborn
- Practice-based Learning and Improvement
- Medical Knowledge: Gynecology
- Medical Knowledge: Office Practice
- Systems-based Practice
